The Stark County Bar Association Technology Committee Presents:

THE SUMMERTIME TECHNOLOGY LUNCHEON WEBINAR SERIES

The Technology Committee's Webinar Luncheon Series is a series of three (3) continuing legal education sessions of one hour each. Each session will introduce and present ways and methods that attorneys are using technology to make their practices more efficient, more effective, and, generally, to make life in the profession better.

Session Three: **From Records to the Witness Stand: Preparing and Presenting Cell Phone Evidence at Trial**

The focus will be on preparing the cell phone expert, understanding the records and conclusions, evaluating expert qualifications and reports, developing effective exhibits, and building a clear direct examination. The program will also address common presentation problems, including confusing maps, unsupported conclusions, overstatement, and the difference between what the data shows and how it may be interpreted. The goal is to help attorneys present cell phone evidence accurately, clearly, and responsibly in court.

Presented by Kevin R. Horan, Co-Founder Precision Cellular Analysis, LLC
